

**Fase:**

Cerrada

**Fecha de publicación:**

20/07/2010

**Fecha de cierre:**

17 de noviembre de 2010 , a las 17:00 (hora local Bruselas)

**Descripción:**

A convocatoria abre 9 topics para Collaborative Projects, Collaborative project for specific international cooperation action (SICA), Coordination and Support Action.

- ENERGY.2011.2.3-2: Development of design tools for Offshore Wind farm clusters
- ENERGY.2011.2.5-1: Thermal energy storage for CSP plants
- ENERGY.2011.2.5-2 Advanced heat transfer fluids for CSP technology
- ENERGY.2011.3.7-1: Development of new or improved sustainable bio-energy carriers
- ENERGY.2011.4.1-1: Revisiting solarthermal systems for using breakthroughs in scientific and technological fields
- ENERGY.2011.5.1-1: High-efficiency post-combustion solvent-based capture processes.
- ENERGY.2011.5.2-1: Understanding the long-term fate of geologically stored CO2.
- ENERGY.2011.6.1-1: Optimisation of IGCC technologies for use with high ash content coal
- ENERGY.2011.7.2-1: Innovative tools for the future coordinated and stable operation of the pan-European electricity transmission system
- ENERGY.2011.7.2-2: Innovative strategies and tools for the reliability assessment of the pan-European electricity transmission network
- ENERGY.2011.7.3-1: Network of projects developing the future European electricity networks

**Programa:** [Séptimo Programa Marco \(FP7\)- Cooperación](#)

**Área Temática:** [Energía](#)

**Fecha fin:** 17/11/2010
